ABOUT US

Founded in 2009, Mimansha Herbals is a research-driven Ayurvedic wellness company committed to creating advanced natural healthcare solutions for modern lifestyles. Blending the timeless wisdom of Ayurveda with modern science, phytochemistry, and innovative delivery technologies, we develop premium wellness and skincare products with superior absorption, enhanced effectiveness, and holistic health benefits.

Mimansha Naturals, the innovation division of Mimansha Herbals, specializes in Liposomal Nano Fusion Technology, advanced liquid nutraceuticals, and high-bioavailability Ayurvedic formulations designed for next-generation wellness and beauty care.

OUR MISSION

To revolutionize Ayurvedic healthcare through advanced liposomal and nano-fusion technologies that deliver highly effective, fast-absorbing, scientifically designed wellness solutions for modern consumers. We aim to bridge the gap between traditional herbal wisdom and modern scientific innovation by developing premium formulations focused on bioavailability, efficacy, safety, and consumer convenience.

OUR VISION

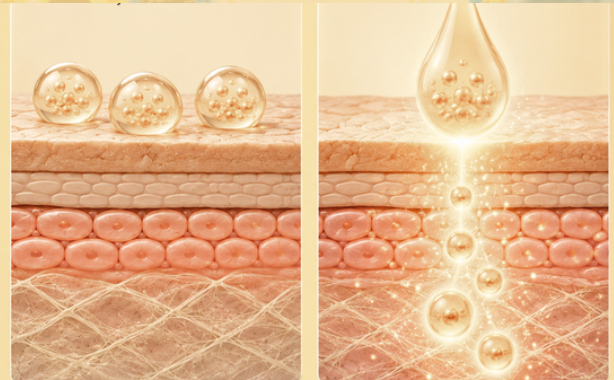

To become a global leader in modern Ayurvedic wellness by creating future-ready healthcare and skincare solutions powered by liposomal delivery systems, botanical science, and advanced nutraceutical innovation. We envision transforming preventive healthcare through intelligent formulations that support better absorption, deeper nourishment, and enhanced wellness outcomes.

WHAT ARE LIPOSOMAL PRODUCTS?

Mimansha Naturals™ offers advanced liquid Liposomal wellness formulations for superior absorption and effectiveness. Our healthcare range works in just 10 oral drops daily, while skincare products require only a few topical drops. Powered by Liposomal Nano Fusion Technology for enhanced bioavailability, stability, and faster nutrient delivery.

LIPOSOMAL NANO FUSION TECHNOLOGY

Liposomal products are advanced wellness formulations in which nutrients and herbal actives are encapsulated inside microscopic phospholipid carriers called liposomes. This innovative delivery technology helps support superior absorption, enhanced bioavailability, improved stability, faster utilization, and effective cellular nourishment compared to conventional supplements.

ACNELUME CLEAR XT™

Advanced Anti-Acne & Hyperpigmentation Drops

Advanced Phospholipid Nano Encapsulation

This synergistic blend helps reduce blemishes, balance excess oil, calm skin irritation, and promote a more even skin tone.

Benefits

- ✓ Targets Acne, Blemishes & Breakouts
